About the book

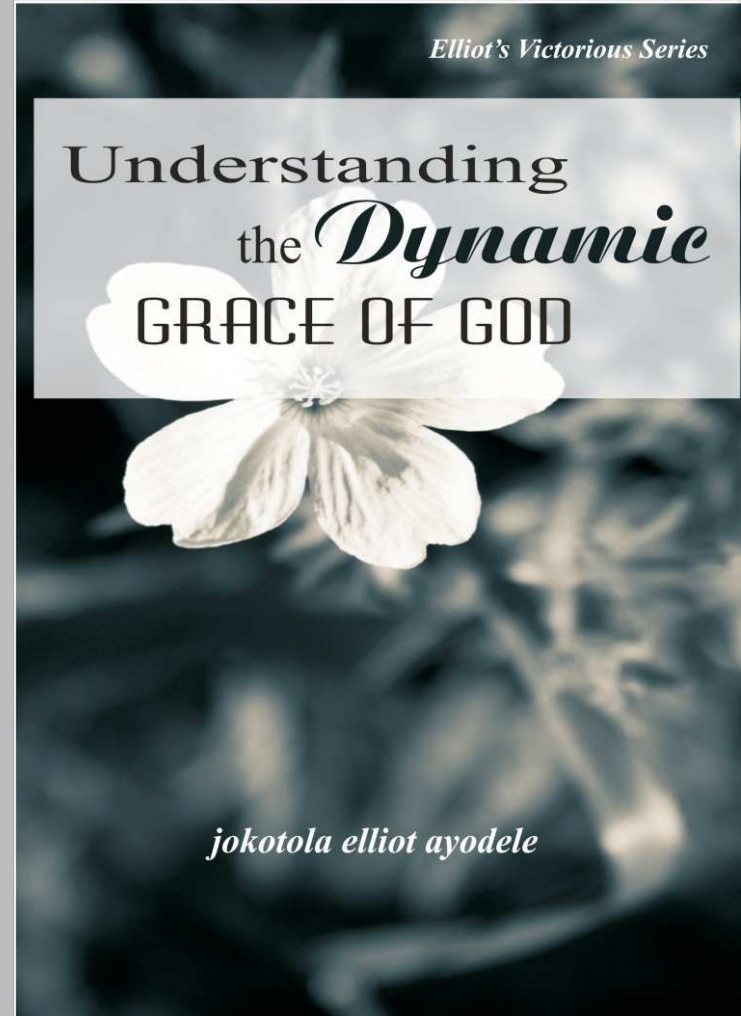

Your access to grace is secured by Your relationship with God. It should be very clear that the grace you enjoy is an offshoot of your relationship with God. Now, when through sin you depart from God's kingdom and join force with the devil, the grace of God departs from you because it is impossible for you to be in one kingdom and be enjoying the resources of another.

Get ready to have your life revolutionized with the word of life as Jokotola Ayodele takes you through the Holy Scriptures.
